BC Forestry: Change, Resilience and Safety

Cherie Whelan

CEO, BC Forest Safety Council

# Harvest Volumes

- Market Instability & Uncertainty
- Fibre Constraints
- Mill Closures
- Wildfire Risks
- Operational Complexities

## An Industry under Pressure

- FIBRE
- MARKETS
- COST

# The Forest is changing. So is the Work.

- Thinning
- Wildfire Resilience
- Salvage
- Utilization

# When the Work Changes, So Does the Risk.

## Safety has to evolve with the work

**BC Forest Safety**

Safety is **good** business

# NEW WORK. NEW RISKS. NEW THINKING.

IDENTIFY • UNDERSTAND • MANAGE • MITIGATE

Applying what we've learned  
from Process Safety &  
Critical Control Management

*Safety has to evolve with the work*

# Thank You
